MEMORANDUM FOR DISTRIBUTION

SUBJECT: Defense Logistics Management System (DLMS) Annual DLMS Status
Review as of December 31, 2006

The DOD 4140.1-R, Materiel Management Regulation establishes a requirement for DLMSO to issue to the DUSD(L&MR) and to the other DOD Components a status review of all revision proposals that have not yet been approved for publication, or, that if approved, have not been implemented.

Attached is the DLMS Status Review. The consolidated review includes both Defense Logistics Standard System (DLSS) (i.e., MILSTRIP, MILSTRAP, SDR, Contract Administration, and MILSBILLS) and DLMS changes. Part I contains revision proposals which have not been approved for publication. Part II contains approved changes currently being staffed with the Components for establishment of an implementation date. Part III consists of approved changes scheduled for implementation. The web version of the review is updated periodically at <http://www.dla.mil/j-6/dlms/eLibrary/Changes/processchanges.asp>.

The Components are responsible for providing timely responses to proposed change coordination and updated implementation status which are compiled for this report. Components should carefully review the attachment and submit missing responses and updated implementation status, as appropriate. ***Bold italics*** are used to identify updates since the last annual report.

Addressees may direct questions or comments to the DLMSO points of contact below. All others please contact your designated Component representative.

DLMS STATUS REVIEW

PART I -- PROPOSED CHANGES

PROPOSED CHANGE NO. TITLE DATE ISSUED ACTION OFFICER	BRIEF DESCRIPTION OF CHANGE	ORIG- INATOR	REPLY STATUS		
			DATE DUE	REC'D FROM	COMMENT
PDC 29 Requisition Priority Designator (PD) Validation (Supply/MILSTRIP) 3/10/99 Hilert	Provides instructions for use of PD. Specifically addresses requisitioning in support of deployed or off-station F/AD I units.	DLMSO			On hold. AF implementation under DLSS not feasible. Proposal to be reworked for DLMS implementation.
PDC 44A Inclusion of Supplemental Information for UIT/SIM in the Two-Dimensional Symbol on the IRRD (DD Form 1348-1A). (Supply/MILSTRIP) 2/17/05 Hilert	ADC 44 provided specifications for the 2D (Portable Data File (PDF) 417) on the IRRD, including the current linear bar code data elements plus additional elements. The addendum adds supplemental optional data fields for the purpose of unique item identification.	Navy, Naval Inventory Control Point, M0411	04/04/05		<i>Replaced by Addendum 44B – published as ADC 44B</i>
PDC 62 Proposed Change to the DAASC Mailing Process 3/31/00 Hilert	This change reduces or eliminates DAASC mailing of transactions related to MILSTRIP and MILSBILLS processes.	DAASC		USASAC	On hold. DAASC will phase out mailers as alternatives are adopted and identify high volume activities for appropriateness of mailing. <i>11/23/05 - USASAC concurs with the proposal to adopt the terminate default option for DAASC mailings to Army FMS customers. This methodology already used by AF; awaiting response from Navy (follow-up to Navy 11/27/06).</i>

PDC 98 Clarification of Transportation Control Number Usage for Modes 9 and X (Supply/Transportation/MILSTRIP) 2/04/03 Hilert	The MILSTRIP/DLMS revision is minimal and consists only of providing clarification to the entry instructions for the TCN field. The substantive change required to support this revision must be accomplished in the MMR and the DTR. Exclusions by mode of shipment are not recognized. This change would allow for optional assignment of the TCN for modes 9 and X.	DLA			On hold pending USTRANSCOM decision.
PDC 103 Revised Service Code V Use (Supply/MILSTRIP) 3/30/03 Hilert	This change proposes reassigning the use of Service Code V, in record positions 4, 67, and 74 to the Navy (designating the start of the Routing Identifier field in MILSTRIP and MILSTRAP logistics transactions). V is currently assigned to NASA.	NAVICP			To be released as ADC 102 upon determination of planned Navy implementation date
PDC 108 Mandatory Identification of CIIC on Transfers to DRMO (Supply/MILSTRIP) 7/24/03 Hilert	This change requires mandatory identification of the CIIC on the Defense Turn-in Document (DTID), DD Form 1348-1A or DD Form 1348-2. Additionally, the heading for block 9 is revised and instructions for block 15 are updated.	DRMS- BA (Guy Stutzman)	9/09/03		<i>Withdrawn by DRMS.</i>
<i>PDC 110E Additional Air Force (USAF) Interfund Billing Restrictions (Finance) 9/27/06 Rhone-Jones</i>	<i>This change expands the USAF edits approved under ADC 110, to trigger DAAS rejection of bills containing USAF DODAACs that may not be used in billing.</i>	DFAS Denver	9/29/06		<i>Published as ADC 110E</i>

PDC 142A 856A Due-In Data Maintenance - Shipment Notice for Shipments to a CCP 11/16/05 Hilert	This change forwards the 856A Due-In Data Maintenance designed to replace the DLMS Supplement 856SC established under ADC 142. The attachment is the format used for coordination of the 856A revisions by the Defense Transportation EBusiness (DTEB) and has been provided to the Supply PRC for comment.	DLA/ TRANSC OM	11/21/05		<i>Effective January 2006, the DTEB Committee approved changes to the existing 856A IC to support the migration of the legacy MILS CDP/CDF/CDY/CBF transactions into EDI and to support the implementation of passive RFID into Due-in Notices DLMSO working with USTRANSCOM for standardization of Supply data content. ADC 142A awaiting USTRANSCOM decision on inclusion of new chapter in DLMS manual.</i>
<i>PDC 147A DLMS Unique Item Tracking (UIT) Procedures (Supply/UIT) 2/6/06 Johnson</i>	<i>This change provides for DOD 4000.25-M, DLMS, Volume 2, UIT (formerly called serial number tracking) procedures. This change replaces PDC 147 in its entirety. The purpose is to support the changing environment for maintaining visibility of uniquely identified assets for the primary purpose of inventory control and/or engineering analysis and to develop procedures to support evolving UIT systems.</i>	<i>DLMSO</i>	<i>3/16/06</i>		<i>Published as ADC 195 on 4/10/06</i>
PDC 172, Inclusion of Data Supporting UID of Items in DS 842A/W, SDR, WebSDR (Supply) 5/20/05 Hilert	This change updates business processes using DOD WebSDR and the DS 842A/W to carry unique item identifier (UII) data for unique identification (UID) of assets. <p>ADC 172, Request for Implementation Date (RFID) for Approved DLMS Change (ADC) 172, New Unique Item Tracking (UIT) Designator Code, and Inclusion of UID and RFID Indicators in DLMS Supplement (DS) 527D Advance Receipt Information (Supply/UID/RFID) (Staffed by PDC 149) 8/18/05 Johnson</p>	<p>ADC 172 establishes two indicators for use in the DS 527D, Advance Receipt Information (ARI) transaction (formerly Prepositioned Materiel Receipt (PMR) transactions in MILSTRAP), in support of UID and RFID policy. The intent is to provide an automated mechanism for the ICP to notify the receiving activity in advance that there is a contractual requirement for UID or passive RFID.</p>	<p>Implementation dependent on Components.</p>	<p>DLA DSS: ADC 172 is scheduled for implementation in DSS release 7.1. That places it in production around January 2007. Testing will need to occur prior to being placed in production.</p>
<p>ADC 173 Administrative Correction to DLMS Supplement 846A, Asset Reclassification (Supply) 8/12/05 Johnson</p>	<p>This update deletes code “ABR – Assigned by Receiver in the LQ segment of DLMS Supplement (DS) 846A; and provides an administrative update to delete a DLMS note in the LIN segment.</p>	<p>Immediately</p>	
<p><i>ADC 174 Inclusion of Data Supporting UID of Items in DS 842A/W, SDR, WebSDR (Supply/SDR) (Staffed by PDC 172) 2/23/06 Hilert</i></p>	<p><i>This change updates business processes using DOD WebSDR and the DS 842A/W to carry unique item identifier (UII) data for unique identification (UID) of assets. Component system changes which are required to support the integration of the UII data are not identified in this change and must be addressed by the Components. The DLMS and DOD4140.1-R, DOD Supply Chain Materiel Management Regulation, provide for unique item tracking (formerly called serial number tracking) for specific DOD UIT programs.</i></p>	<p><i>Approved for phased implementation beginning March 2006</i></p>	<p><i>Implemented for transaction exchange. Web entry deferred.</i></p>

ADC 176 Revision to Requisition Format to Accommodate Commodity- Unique (Mapping Products) Data (Supply) (Staffed by PDC 180) 8/29/05 Hilert	Provides DADMS notification if the received requisition is the first request or if the received requisition was previously sent to DADMS. This will prevent DADMS from resending the requisition to MSODS to fill. MSODS includes their RIC so DADMS will understand that MSODS was unable to satisfy the requisition received from DADMS. The presence of the RIC SD7 in the requisition is a denial mechanism for the DADMS/MSODS interface.	Immediately	<i>Implemented.</i>
ADC 177 Advance Shipment Notice (ASN) 856 Cancellation and Correction Functionality (Post Acquisition/MILSCAP) (Staffed by PDC 181) 9/15/05 Hilert	This change request makes available for use additional codes within the Beginning Segment (BSN) of the 856 ASN transaction to support capability to identify cancellations and corrections	<i>WAWF Implementation 12/19/05.</i> <i>BSM implementation is planned for Release 2.2 in January 2006.</i>	
ADC 178 DS 511R Requisition to Support DEPMED Unit Assembly (Order Fulfillment/Supply) (Staffed by PDC 179) 9/07/05 Hilert	The C2L transaction provides the requisition data to the source of supply for DEPMED units which require assembly. Its basic structure mirrors the MILSTRIP Requisition, DI Code A0_. It is not currently translated by DOD Automatic Addressing System Center (DAASC) into DLMS X12. This PDC requests the DLMS and DAASC maps be updated to incorporate the C2L transaction in the DLMS Supplement 511R, Requisition.	<i>1/01/2006</i>

ADC 179 Revisions to DS 824R, Reject Advice, to include DAASC Narrative Rejects, and Expansion for Rejection of Additional DLMS Transactions (Contract Administration / Supply) (Staffed by PDC 171) 9/13/05 Johnson	This change expands the scope of DS 824R, Reject Advice.	Implementation Dependent on Components.	
ADC 180 Revision to Material Release 940R DS to add AIN and BDN (Supply) (Staffed by PDC 184) 9/27/05 Hilert	The change is provided to support the medical and industrial kitting community requirements. The basic processes involved in the information exchanges covered by this change are consistent with current processes used by the Defense Logistics Agency and USAMMA, however, the medium of exchange will be the DLMS ASC X12 standard transaction set rather than the current DLSS DLA-unique Material Release Orders (MRO) A5_ transaction used to requisition medical kits.	12/2005	<i>Implemented. However full capability under DLMS not available at this time.</i>
ADC 181 Withdrawal of Approved DLMS Change 181, Foreign Military Sales (FMS) (SDR) for Latent Defects 11/9/05 Hilert			<i>-----WITHDRAWAL --- Rewrite in progress. ADC 181A replaces ADC 181</i>
<i>ADC 181A Foreign Military Sales (FMS) (SDR) for Latent Defects (Supply/SDR) (Staffed by PDC 174/ADC 181) 6/6/06 Hilert</i>	<i>This change adds clarifying information for submittal of a latent defect under the Supply Discrepancy Report "Latent Defects" submission criteria. It also clarifies intent to process quality-related SDRs under PQDR procedures.</i>	<i>Immediately</i>

ADC 182 Increased Functionality for DLMS 861, Acceptance Report (MILSCAP/Post Acquisition) (Staffed by PDC 182) 9/22/05 Hilert	This change request makes available for use additional codes within the Beginning Segment of Receiving Advice/Acceptance Certificate (BRA) and Receiving Condition (RCD) Segment codes of the DLMS 861, Acceptance Report (AR). Additional clarifying notes are added to the DLMS Supplement.	12/19/05	<i>Scheduled for DSS/WAWF implementation by Jan 06.</i>
ADC 183 DS 511R Requisition Revisions Supporting DOD EMALL Part Number Catalog Orders (Staffed by PDC 185) 10/12/05 Hilert	This change provides for identification of contract number, unique order number, sales price, and contract price in the 511R as applicable to part number orders for DLA supplied items under DLA contracts for DOD EMALL.	12/31/05	
ADC 184 Redistribution Order (RDO) – based Supply Discrepancy Report (SDR) (Supply/SDR) 10/24/05 Hilert	This change revises SDR business rules for routing SDRs resulting from Redistribution Order (RDO) shipments using the DLMS 842 transaction and the DOD WebSDR for distribution. This change provides new rules for routing action copy to the shipping depot and information copy to the material owner.	Immediately	<i>Implemented</i>
ADC 185 Administrative revision to DLMS Supplement 536L, Logistics Reassignment Management Data (Supply) 10/13/05 Johnson	This change modifies the 536L DS to incorporate administrative updates to remove erroneous codes, and for consistency with other DS.	Immediately

ADC 186 DLMS Requisition Revisions to Support Theatre Enterprise-Wide Logistics System (TEWLS) (Order Fulfillment/Supply) (Staffed by PDC 188) 12/16/05 Hilert	The Theater Army Medical Management Information System/Defense Medical Logistics Standard Support (TAMMIS/DMLSS) generates a transaction that provides the requisition data to the source of supply. Its basic structure is a MILSTRIP Requisition, DI Code A0_. The TEWLS requisition format optionally contains an Account Processing Code (APC) in rp 75-78 that enables the requesting customers to identify the financial account.	Immediately	
ADC 187 Revise SDR Reply Procedures for Forwarding SDRs to New Action Activity, E-mail Addresses, and SoS (Supply/SDR) (Staffed as PDC 191A) 12/13/05 Hilert	This change documents current procedures for forwarding SDRs within the DOD WebSDR and proposed changes to accommodate more appropriate transaction design. This ADC documents use of WebSDR to generate/distribute a new report when the original was sent to the wrong action activity and distribution of reports and replies via e-mail based upon e-mail address extracted from the incoming transaction. This change also reflects identification of the source of supply on the reply transaction.	Immediately	<i>Implemented at DAAS and AFSAC. DSS and BSM implementation scheduled for June 06.</i>
<i>ADC 188 Approved Defense Logistics Management System (DLMS) Change (ADC) 188, Quality-Related Discrepancies Identified During Distribution Depot (DD) Receipt and In-Storage Screening (Supply/SDR/SQCR) (Staffed by PDC 190) 1/9/06 Hilert</i>	<i>This change defines reporting of quality discrepancies during receipt and storage when DOD material owners specifically request screening from Defense Distribution Depots (DD).</i>	<i>Jan – Feb 2006</i>	<i>Implemented</i>

ADC 189 Revise DLMS Supplement (DS) 650C, Component Packing Confirmation, to Allow for Functionality of Decimal Capability in Quantity Packed (Supply) (Staffed by PDC 192) 12/14/05 Johnson	This change incorporates in DS 650C, functionality which exists in the 80-record position Document Identifier (DI) Code C2F, Component Packing Confirmation transaction. The DLA-unique DI Code C2F provides for up to two decimal positions for quantity packed.	1/14/05	
ADC 190 Visibility and Traceability for U.S. Weapons Purchased or Produced Under a DOD Contract and Shipped Directly to Security Assistance or Other Customers Outside of the DOD (DODSASP) (Staffed by PDC 197) 12/19/05 Johnson	This change provides procedures for registering weapons when a DOD agency assumes title and accountability for U.S. weapons purchased or produced under a DOD contract, and then shipped directly to Security Assistance or other customers outside of the DOD. The purpose is to ensure that all weapons are reported and registered when the DOD assumes title and accountability.	This change establishes two new management codes for use on the Supply Status transaction. Both new management codes are authorized for use in the Defense Logistics Management System (DLMS). The Defense Automatic Addressing System Center (DAASC) will support conversion between MILS and DLMS transactions when used.	
<i>ADC 191 Management Codes on Supply Status Transaction (Supply/MILSTRIP) (Staffed as PDC 198) 3/14/06 Hilert</i>	<i>This change establishes two new management codes for use on the Supply Status transaction.
