MEMORANDUM FOR: DISTRIBUTION

SUBJECT: Approved DLMS Change (ADC) 5, Approved DLMS 842D
Implementation Convention (IC) (Staffed by DLMS Proposed
DLMS Change (PDC) 5)

The PDC 5 was originally staffed to coordinate the electronic data interchange (EDI) 842 IC which was developed subsequent to the publication of the DLMS manual. The IC evolved through multiple review periods during which the Transportation Discrepancy Report (TDR) functionality was separated by request of USTRANSCOM for independent development. Various data elements were added, deleted, or modified as the IC was coordinated through the DLMS Process Review Committee, the Supply Discrepancy Reporting Subcommittee, and the DoD Product Quality Deficiency Reporting Committee. On September 8, 1998, the IC was Federally approved under the EDI Standards Management Committee process. The IC is available for review at the DLMSO website at www.dlms.hq.dla.mil or the National Institute for Standards website at <http://snad.ncsl.nist.gov/fededi/4010-ic.html>.

This memorandum closes all action related to PDC 5. Any future changes to the 842D IC will be addressed separately. Addressees may direct questions to Ms. Ellen Hilert, DSN 427-0676, 703-767-0676/e-mail: ellen_hilert@hq.dla.mil. All others please contact your designated Component representative.
