MEMORANDUM FOR SUPPLY PROCESS REVIEW COMMITTEE (PRC) MEMBERS

SUBJECT: Approved Defense Logistics Management System (DLMS) Change (ADC) 471,
Administrative Update to DLMS 824R Reject Advice (Supply)

The attached change to DOD 4000.25-M, DLMS, is approved for immediate implementation.

Supply PRC representatives may direct questions to Ms. Mary Jane Johnson, email: Mary.Jane.Johnson@dla.mil. Others must contact their Component designated Supply PRC representative.

DONALD C. PIPP
Director
DLA Logistics Management Standards

Attachment
ADC 471

ATTACHMENT TO ADC 471
Administrative Update to DLMS 824R Reject Advice (Supply)

1. ORIGINATOR SERVICE/AGENCY AND POC INFORMATION:

a. Service/Agency: DLA Logistics Management Standards, J627

b. Functional POC: Ms. Mary Jane Johnson, 703-767-0677, DSN 427-0677, email: Mary.Jane.Johnson@dla.mil.

2. FUNCTIONAL AREA: Primary: Supply/MILSTRAP

3. BACKGROUND:

a. Intent of the change: Administrative updates to DLMS 824R Reject Advice transaction.

b. : Update the DLMS 824R as follows:

Item #	Location	DLMS 824R Reject Advice Revision	Reason
1.	DLMS Introductory Notes	<u>Add ADC 471 to DLMS introductory note 6:</u> - <i>ADC 471, Administrative Update to DLMS 824R Reject Advice (Supply)</i>	To identify DLMS changes included in the transaction.
2.	DLMS Introductory Note 2	<u>Revised DLMS Introductory Note 2 as follows:</u> DLMS Intro Note 2. <i>DLMS 824R</i> was initially developed for use for rejection of DLMS Supplements (DS) 527D, 527R, 536L, 830R, 830W, 846A, 846D, 846F, 846I, 846L, 846P, 846R, 846S, 867D, 867I, 870L, 888I, and 947I, providing specific reject advice codes. However the <i>DLMS 824R</i> scope is expanded and it is authorized for use with other DLMS supply and contract administration transactions not specifically identified, but does not supersede procedures for error identification addressed by the <i>DLMS 140A Small Arms and Light Weapons (SA/LW) Reporting</i> , <i>DLMS 870S Supply Status</i> or <i>DLMS 842A/R DoD Supply Discrepancy Report Reply</i> . Also used by <i>DLA Transaction Services DAASC</i> for narrative message type rejects for all DLMS transactions subject to rejection by DAASC narrative messages.	Administrative updates.

Item #	Location	DLMS 824R Reject Advice Revision	Reason
3.	1/BGN02/020	<u>Revise DLMS note:</u> DLMS Note: Use to identify the unique reference number (document number) assigned to this DLMS 824R transaction set, not the transaction set that is being rejected.	Administrative updates.
4.	1/BGN07/020	<u>Revise DLMS note as follows:</u> ZT Report of Rejection or Return of Work Candidate DLMS Note: Use to identify a Reject Advice transaction. (<i>MILSTRAP DIC DZG functionality; but also used for expanded DLMS reject capability beyond the scope of legacy MILSTRAP DZG.</i>) An ANSI data maintenance request has been prepared to request a new data element 640 Transaction Type Code for 'Reject Advice'.	Administrative update. Identifies corresponding MILSTRAP functionality. Removes reference to an ANSI Accredited Standards Committee (ASC) X12 data maintenance Code Maintenance Request (CMR) which was withdrawn. CMR number C40105. In January 2012 DLA Logistics Mgt Standards office contacted the ASC X12 secretariat to determine status of CMR C40105 submitted in 2005. This query revealed that initial member review of the CMR came back with several comments. The CMR was referred to X12G (Government subcommittee) and X12G deferred it for future consideration at several consecutive meetings. X12G meeting minutes indicate that while there was further discussion about the CMR at X12G, the comments were never directly addressed and the CMR was not resubmitted for member consideration. In 2007 DLA Log Management Stds Office withdrew CMR C40105.
5.	1/N1/030	<u>Revise Segment Level DLMS Note:</u> DLMS Note: Must use 2 iterations of the 1/N1/030 loop; one iteration to identify the activity transmitting the DLMS 824R Reject Advice transaction and a second iteration to identify the activity to whom the DLMS 824R Reject Advice transaction is being sent.	Administrative update
6.	1/N101/030	<u>Revise DLMS notes for existing codes as follows:</u> FR Message From DLMS Note: Use to identify the activity transmitting the DLMS 824R Reject Advice transaction. TO Message To DLMS Note: Use to identify the activity to whom the DLMS 824R Reject Advice transaction is being sent. The TO address is the originator of the transaction being rejected.	Administrative update

Item #	Location	DLMS 824R Reject Advice Revision	Reason
7.	2/OTI02/010	<u>Add new DLMS Note to existing code TN:</u> TN Transaction Reference Number DLMS Note: <i>Use to identify the document number.</i>	Administrative update
8.	2/REF01/020	<u>Revise Data Element DLMS Notes as follows:</u> DLMS Note: 1. Use with the Transaction Document Number or Contract Number identified in 2/OTI02/010 to identify additional controlling numbers of ELIN, CLIN, call/order number (for use with contract number) or suffix code (for use with transaction document number). 2. Use one of codes 1I, EQ, FQ, MF, NS, S6, WL, XD, or ZZ to identify materiel in the same manner it was identified in the transaction being rejected (e.g. if an NSN was identified in the transaction being rejected, that NSN should be identified in DLMS 824R REF01/02).	Administrative update. Clarifies that the transaction number is the document number.
9.	2/TED01/070	<u>Revise DLMS note 1 for qualifier OTH:</u> OTH Other DLMS Note 1: DAASC DLA Transaction Services <i>uses to provide narrative message reject information. Use with the 2/NTE/080 segment.</i>	Administrative update to reflect DLA Transaction Services (formerly DAASC) name change.
10.	2/NTE/080	<u>Revise segment level DLMS note 1:</u> DLMS Note 1. DAASC DLA Transaction Services <i>uses to provide information previously provided by narrative message rejects. Use only with 2/TED01/070 code OTH-Other.</i>	Administrative update to reflect DLA Transaction Services name change.
11.	2/LQ01/086	<u>Revise DLMS Note 2 for existing code 0:</u> 0 Document Identification Code DLMS Note: 2. May use 2 iterations of LQ01 code 0 when the rejected transaction contained an LQ01 code 0. Use one iteration with LQ02 code value DZG, when applicable, to represent DLMS 824R equated to DL Code MILSTRAP DIC DZG in a mixed DLSS/DLMS environment. Use another iteration of LQ01 code 0 with the code value from the transaction being rejected when applicable.	Administrative update to reflect DLA Transaction Services name change.

4. REASON FOR CHANGE: This approved change identifies administrative updates to DLMS 824R.

5. ADVANTAGES AND DISADVANTAGES:

a. Advantages: Updates and clarifies 824R Reject Advice transaction.

b. Disadvantages: None identified.

6. ESTIMATED TIME LINE/IMPLEMENTATION TARGET: Effective immediately. This is an administrative update with no system impact.

7. IMPACT: Publications. Revise DLMS 824R as noted.
