Administrator

Approved MILSTRIP Change Letter (AMCL) 124  
Document Identifier Code AE8/AS8 for Supply  
Source Initiated Requisition Status

1. Revise para. 4-21b to read:

"b. For each requisition, modifier document, redistribution, referral, passing, and materiel release order processed, supply sources will furnish supply and/or shipment status.

(1) Supply sources will transmit DI Code AE8/AS8 transactions to DAAS for all supply source initiated requisition status. Upon receipt by DAAS of the A 8 status transaction, DAAS will convert the A 8 to the appropriate DI Code AE\_ or AS\_ and make distribution in accordance with paragraph 4-31 and 4-51. Except for cancellations and rejections, status will be furnished by DAAS to the activity designated by a significant M&S code in cc 7, and to the activity designated by a significant alphabetic distribution code or significant numeric code (as designated in appendix B12) in cc 54.

(2) For each shipment on a DTID, shipping activities will furnish shipment status (DI Code AS3 with distribution code 9 in cc 54) to the DAAS for transmission to DPDS."

2. Revise para. 4-21h to read:

"h. Supply and shipment status DI Codes AE8, AS8, and AU8 are reserved for use between Services/Agencies and DAAS.

(1) The use of DI Codes AE8/AS8 is mandatory for all supply source initiated requisition status. Supply source initiated requisition status includes all status generated during supply source processing that is not produced in response to followups or cancellation requests.

(2) The use of DI Code AU8 in response to cancellation requests, when the MILSTRIP status distribution rules require multiple recipients of status, is optional. Upon receipt of DI Code AU8 reply to cancellation request - shipment status, DAAS will convert the AU8 to the appropriate DI Code AU\_ transactions, and make distribution to all eligible status recipients as identified in para 4-42c.

(3) The formats of the DI Code AE\_, AS\_, and AU\_ status transactions are shown in appendices C9 and C17.

3. Add new para. 4-21i as follows:

"i. DI Codes AE8/AS8 will indicate to DAAS that supply source initiated status is being provided as a result of requisition processing."

4. Revise paragraph 4-51 to add a Note 5 to read as follows:

"5/ For supply source initiated requisition status during processing of DI Code A0\_, A2\_, A3\_, A4\_, and those AM\_ and AT\_ transactions processed as requisitions, the supply source will transmit only DI Code AE8/AS8 status transactions to DAAS. DAAS will convert the AE8/AS8 and make distribution in accordance with paragraphs 4-31 and 4-51." (Add the footnote annotation "5/" in the Customer In-Put Document Identifier column immediately after the entries for A0\_, A2\_, A3\_, A4\_, AM\_, and AT\_.)

5. Revise appendix B1 to delete the sentence: "Use by Service/Agency is optional" from the explanation of DI Code AE8 and DI Code AS8.
